## Agreement on cooperation between Jagiellonian University, InnoCel and Bio4Dreams.

The Agreement on Cooperation between **Jagiellonian University**, with **InnoCel** (its subsidiary), and **Bio4Dreams** aims at scouting, boosting, developing, and funding projects and startups in Life Sciences.

Specifically, the Parties periodically undertake to mutually exchange:

- startups and entrepreneurial projects and related investment opportunities arising from their network, concerning healthcare, medical devices, biopharmaceutical area and diagnostic;
- public and private grant opportunities, with the possibility of participating jointly or mutually supported by the other party.

Moreover, Jagiellonian University and InnoCel can benefit from Bio4Dreams' expertise, competences, and services (proof of concept, laboratories, market analysis, etc.) either for supporting their activities or the activities of the startups/projects of their network.

Founded in 1364, the **Jagiellonian University** is one of the most ancient universities in the world. Born as a law institute for king's collaborators, over the centuries it introduced other disciplines, with a particular focus on the scientific ones (to which 9 out of 16 faculties are currently dedicated). Every year the University welcomes more than 40k students coming from all over Europe. In 2018 the subsidiary **InnoCel Spółka Celowa Uniwersytetu Jagiellońskiego Ltd.** was founded to foster the most promising ideas in the athenaeum.

**Bio4Dreams S.p.A.** is an entirely privately funded certified incubator fully dedicated to very early stage innovative startups in Life Sciences. The company is focused on value creation starting from scientifically innovative entrepreneurial ideas that could improve people's quality of life, with the support of a broad and established network of national and international partners from the research, finance, and enterprise world.
